

CLEVER CONTROL

The future is here with the new generation Clever control. Maximum control with maximum energy saving.

What is Clever control?

Clever control automatically adapts the functioning of the air curtain to the entrance conditions, maintaining comfort while saving energy. It optimizes the ventilation and heating to make an efficient barrier for optimal climate separation.

It includes manual or automatic functioning with many different programs depending on heating type (water, electrical, heat pump or unheated) and installed temperature sensors.

Clever kit includes:

Clever control

- Colour TFT screen 2.8 inch
- 114 (h) x 85 (w) x 14 (d)mm

PCB power supply

- Input: 100-240Vx1 50/60Hz (AC)
- Output: 24V 2A (DC)- EU 2 pins / BS 3 pin plugs

Outdoor sensor

- Real-time temperature values
- IP65 protection

Intelligent PCB box

- Electronic PCB regulation
- 218 (w) x 140 (h) x 64 (d) mm
- Varnish protection

RJ11 + RJ45 cables

- Easy Plug & Play installation
- RJ11 (4 Pin), 7m length
- RJ45 (8 Pin), 3m length

Door contact

- Monitoring door status
- Magnetic contact
