

Essensse Neo

A low profile air curtain designed for horizontal installation at the entry doorways of retail shops, restaurants, office buildings and banks.

This next generation Essensse Neo air curtain uses a cross-flow fan with 3-speed AC motor, or a new energy-efficient EC motor, controlled using PWM. Through its unique "straw system" outlet, air is released steadily at high pressure to provide the best possible seal across any doorway.

The inlet grille sits towards the top of the air curtain to provide a cleaner front face. It can be periodically wiped or vacuumed, ensuring easy maintenance.

The air curtain features our integrated AirGENIO PRIME control system. This allows for automatic control with manual override. This is a more sophisticated control system which maximises the air curtain's efficiency while reducing energy usage.

Option available

Colours Available

White RAL9016 (standard)
Any RAL colour

Fan Options

AC fan
EC fan

Mounting Options

Horizontal

Heating Options

Electric LPHW

Max Door Height

2.8 m

Lengths Available

1.0m 1.5m
2.0m 2.5m
